

Saabpartstrade.co.uk – How to use the site

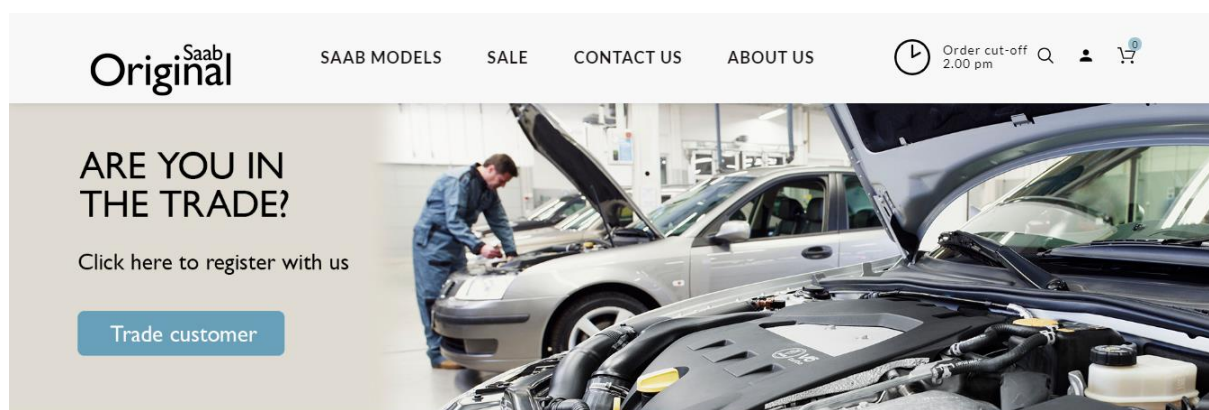

Welcome to our website, created for workshops across the country to buy new parts for Saabs.

With direct access to our UK Distribution centre, we can provide next day delivery on 1,000 of our most popular lines.

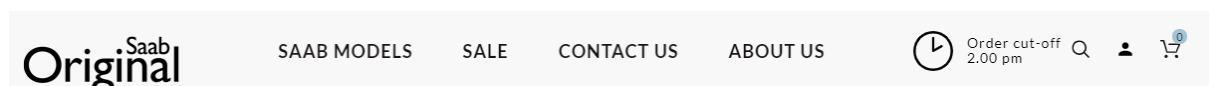

To help you navigate the site, we've created this user guide to highlight the contents and functionality.

1. Registration

Being a Trade customer, you can optimise your savings by registering with us. By setting up a store account, each time you visit just click the 'account' icon and all your previous purchases will be visible and anything you search will be Trade priced.

2. Title bar features

Saab Models;

Here we list the different model types Saab have produced across the years from the 900 (1986-1994), often referred to as "900 Classic", to the 9-5 (2010-2012); the "New Generation 9-5". When you have found the Saab you are looking for, just click the image and you can start searching for parts.

Sale;

This shortcut takes you to a page of parts and accessories, which are discounted as part of a specific stock campaign. If you see something you want, just add it to basket and continue browsing.

Contact Us;

If there is something you would like to check with us, or you can't find what you are looking for, just give us a call or fill out the contact us e-mail form. We'll come back to you as soon as we can.

About Us;

Here you can find out a little bit more about us, where we come from and why we care so much about Saab cars. As you will see we've got history!

Toolbar Icons

This icon is the “Search” facility, and you can use either part description or part number if you know it, to find what you are looking for.

The Account icon. Unless you register, your searches will be conducted as guest. By registering as a customer, you can preload all your details making checkout easier and faster. And for any future visits, your details are all securely stored and you can search and submit orders more quickly.

Shopping basket icon. Keeping you updated on how many items are in your basket as you browse. To check on your contents, or to checkout, just click through to your basket.

Searching / Finding a part

We’ve enabled the site to help you find the parts you need in a couple of different ways.

Firstly, you can use the Filter provided on the landing page, to select the specific vehicle you have.

MODEL FILTER

Reset All

MODEL	YEAR	BODY TYPE	ENGINE CODE	TRANSMISSION	Apply
9-32003-2012	2006	5D	Z19DTH	Manual	Apply

On clicking “Apply”, the site will automatically select the parts that fit your specific vehicle.

9-3 2003-2012

Saab 9-3 2003-2012 Trade parts, and accessories

REFINE SEARCH

- Accessories
- Brake System
- Car Body External
- Car Body Internal
- Electrical
- Engine
- Heating and Ventilation
- Miscellaneous
- Service and Maintenance
- Steering system
- Suspension system
- Transmission

Main parts categories will then be listed for you to click through to and identify the specific part type you are looking for.

For example, selecting “Brake System”, takes you through to a sub-menu, where you can click onto the final product category you are searching for.

BRAKE SYSTEM

Brake System for Saab car models

REFINE SEARCH

ABS system

Brake calipers

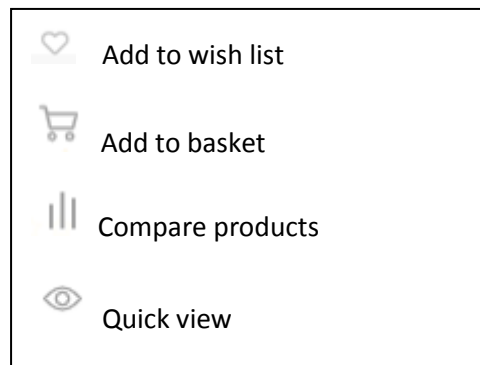

Brake Discs

Brakes pads

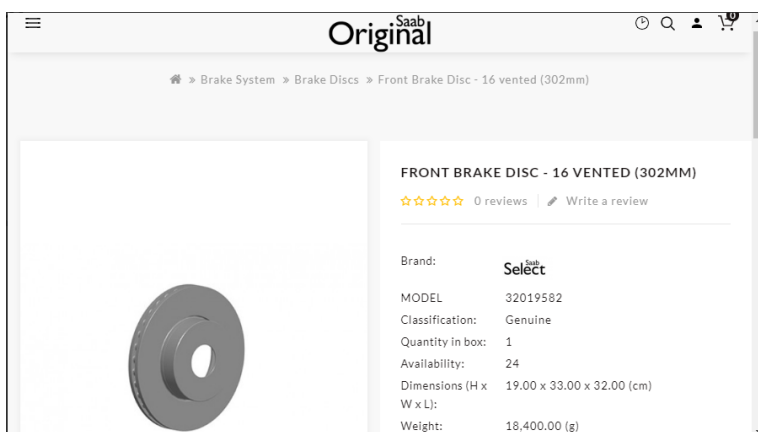

Handbrake

Hoses and Lines

In searching for Brake Discs, your results may show up more than one product, but you can use the “quick view” facility to reveal further product information.

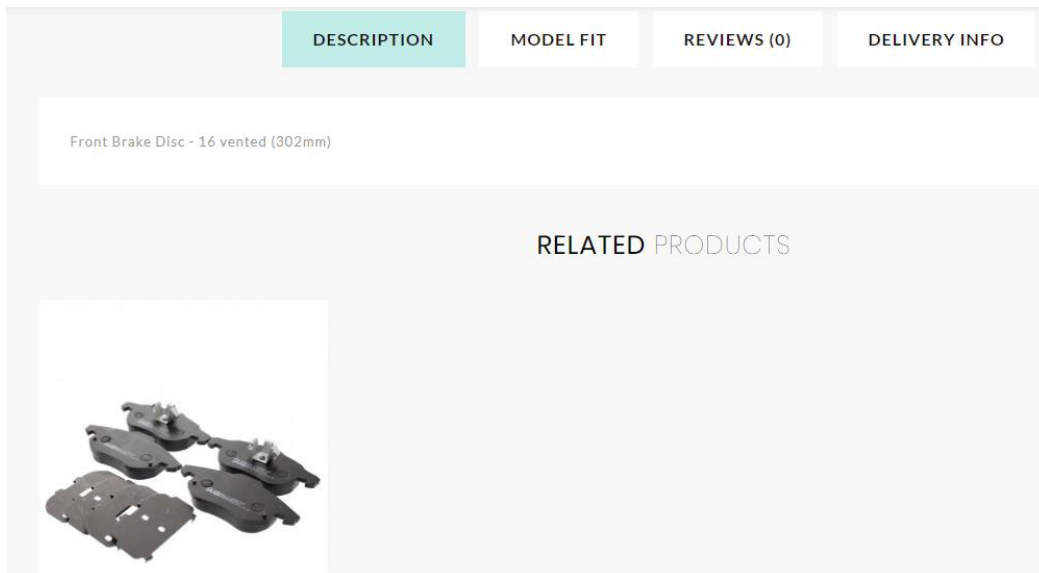

Click “Quick View” and a pop-up info box appears showing picture, classification and dimensions.

On clicking a product for more information, you will be taken to the full product page, which on scrolling down shows information relevant to your search;

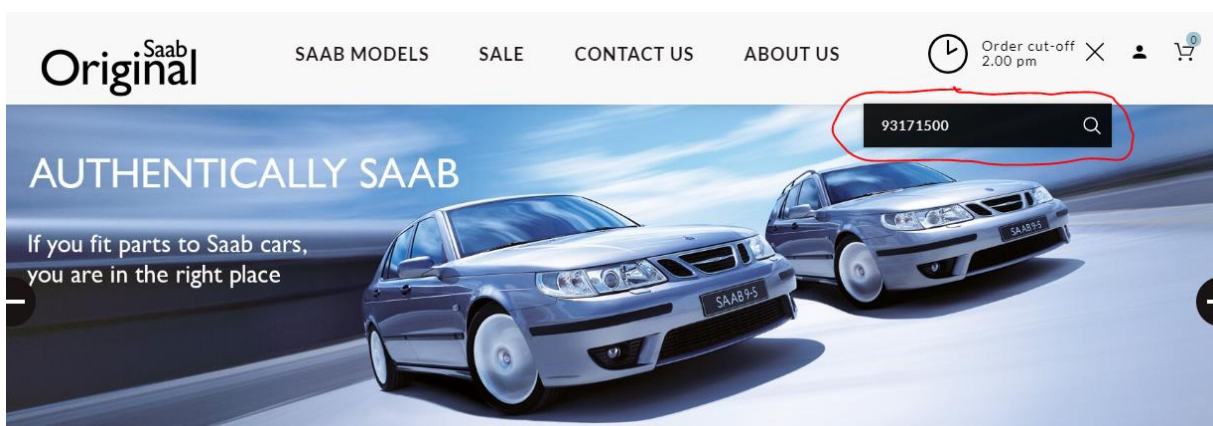

Description; Model Fit; Reviews from previous purchasers; and **Delivery Information**

Also listed are any identified directly related products. In the base of the Brake Disc here, you can see the corresponding brake pads.

The second alternative way of using the site is if you happen to know a specific part number.

Just use the search icon and enter the part number.

If we have the part, or something equivalent to it, it should show up on the search result.
